Unaccompanied Diving

## Unaccompanied Diving Regulations in the Maltese Islands

In accordance with Maltese law, a minimum prerequisite for divers not under the direct supervision of an instructor is MSA EN 14153-2 (PADI AOWD, SSI Advanced Adventurer, BSAC Sports Diver, CMAS 2\*\*, or equivalent). Divers who have not attained this level must be, at all times, under the direct supervision of a licensed instructor who possesses a medical certificate issued by a hyperbaric doctor within the past 12 months, and has a valid third-party liability insurance policy. Previous experience of Gozo's diving scene is recommended. Jeep hire is essential and available through the dive centre.
